The Madrid Union is made up of Contracting Parties to the Madrid Protocol. The office of the Contracting Party in which you apply for or register your basic mark is referred to as the "Office of Origin". In your international application, you can select Contracting Parties in which you'd like to protect your mark, or you can expand the geographical scope of your international registration under the Madrid System at a later time. Cabo Verde becomes the 112th member of the Madrid System, now covering 128 countries. (Photo: WIPO/Katbi) The Madrid Union currently has 112 members, covering 128 countries. These members represent more than 80% of world trade, with potential for expansion as membership grows. Notes with Respect to Countries and Territories Benelux: Belgium , Luxembourg and the territory of the Kingdom of the Netherlands in Europe have a unified legislation on trademarks and a common Office for the registration of trademarks under that legislation (Benelux Office). Under the Madrid System, protection shall be requested as if they were one country (Benelux). Their designation shall be subject to payment of a single complementary or individual fee. BOT - British Overseas Territories and Crown Dependencies: A designation of the United Kingdom in international applications and in subsequent designations through the Madrid Protocol extends to England, Wales, Scotland, Northern Ireland, the British Overseas Territory of the Falkland Islands (Malvinas) as well as to the two British Crown Dependencies of the Isle of Man and Jersey. (see WIPO Information Notice 38/2015) European Community (EM): The European Community Trademark system covers all of the 27 members of the European Union. All of the EU countries (flagged with "EM", above) also have their own national trademark systems, so you would have the choice of having your Madrid Protocol registration covering all of the EU, or only a few countries you were particularly interested in. Note that Malta is not a member of the Madrid Protocol, as such, but since it is an EU member, a Madrid registration can cover Malta through the European Community Trademark system. France: As set out in bulletin 18/2016 from WIPO, the designation of France will also extend to French overseas territories as follows: Designation of France through the Madrid Protocol: A designation of France in international applications and in subsequent designations through the Madrid Protocol extends to French Guiana, French Polynesia, French Southern and Antarctic Lands, Guadeloupe, Martinique, Mayotte, New Caledonia, Reunion, Saint Barthelemy, Saint Martin (French part), Saint Pierre and Miquelon, as well as Wallis and Futuna. Designation of the European Union through the Madrid Protocol: In regard to France and its overseas territories, a designation of the European Union in international applications and in subsequent designations through the Madrid Protocol extends to France, French Guiana, French Polynesia (since July 29, 2001), French Southern and Antarctic Lands (since July 29, 2001), Guadeloupe, Martinique, Mayotte (since July 29, 2001), New Caledonia (since July 29, 2001), Reunion, Saint Martin (French part), Saint Pierre and Miquelon, as well as Wallis and Futuna (since July 29, 2001). Since January 1, 2012, this designation no longer extends to Saint Barthelemy. NA - The instrument of ratification of the Stockholm Act and the instrument of acceptance of the Protocol were deposited for the Kingdom of The Netherlands in Europe. The Netherlands extended the application of the Madrid Protocol to the Netherlands Antilles with effect from April 28, 2003. The Netherlands Antilles ceased to exist on October 10, 2010. As from that date, the Protocol continues to apply to Curacao and Sint Maarten. The Protocol also continues to apply to the islands of Bonaire, Sint Eustatius and Saba which, with effect from October 10, 2010, have become part of the territory of the Kingdom of the Netherlands in Europe. Not US: some countries may not be elected by US applicants because of trade restrictions under US Law. These countries are flagged with "(Not US)" on the table above OAPI (Organisation Africaine de la Propriete Intellectuelle): OAPI is the main organization that ensures the protection of intellectual property rights in most African French speaking countries. OAPI comprises: Benin, Burkina Faso, Cameroon, Central African Republic, Chad, Comoros, the Republic of Congo, Cote d'Ivoire, Equatorial Guinea, Gabon, Guinea, Guinea Bissau, Mali, Mauritania, Niger, Senegal and Togo. The Madrid Protocol will enter into force as to OAPI member countries as of March 5, 2015. Note that the seventeen OAPI members are not individual members of the Madrid Protocol, so coverage in these countries is only available through selecting to register through OAPI, not through separate national registrations.
